

HOTEL MEUDON

Sustainability statement

We are committed to minimising our environmental impact on a global, and local, level. Hotel Meudon's current owners, Kingfisher Group, took charge in 2020, and they have strived to make real, tangible changes to the culture and processes that can have an effect on our planet.

Hotel Meudon is committed to increasing the environmental sustainability of its current operations. This involves integrating sustainable measures into its business model and future developments, while inspiring best practice from our stakeholders and the communities we serve.

By this policy, Hotel Meudon recognises its responsibility towards the protection of the environment, and issues this statement as a commitment of both management and employees to minimising the environmental impact of its operations. The policy will be reviewed annually by the Hotel Meudon management team, seeking support from its stakeholders and feedback from staff members.

We commit to:

- Strive to continuously improve our environmental performance by regularly reviewing our activities and policy, and setting new targets to reduce any environmental impacts.
- Comply with requirements of environmental legislation and work towards approved codes of practice throughout our business operations.

HOTEL MEUDON

- Utilise local suppliers wherever possible for food, beverages, materials and equipment to minimise environmental impact due to transport, and to support the local economy.
- Employ contractors and suppliers who have positive environmental credentials, or working with them to raise their awareness of sustainability.
- Reduce our consumption of resources and improve efficiency.
- In all activities, improve efficiencies and reduce costs, both to the organisation and the environment.
- Promote the reduction, reuse and recycling of waste materials to conserve resources and reduce landfill disposal.
- Ensure all waste is disposed of in a safe and responsible manner.
- Take environmental specifications into account when procuring goods and supplies.
- Raise awareness and encourage participation in dealing with environmental matters through communication and educational events for staff, guests and other stakeholders.
